VL-GC005	Optional Door Station (metallic one)

### Relative Product

MDL No.	Specification
VL-MW250	Main Monitor (same as one included in VL-SW250)

\*The main monitor and wireless monitor can be used as far as 100 m apart provided there are no obstructions in-between them, however some buildings and environments shorten the range of radio waves. Keep communication equipment at least 20 cm in all directions from the main monitor and wireless monitor because noise from the intercom system may interfere with communications.
