

## DESERT ROSE

DESIGN BY DORIANA AND MASSIMILIANO FUKSAS

A floral stone, wild yet delicate, nestled between golden sand dunes. An explosion of weightless forms, complexly stratified, evoking faraway lands. The light only enhances the rhythm of the lamp's geometries, begun with a two-dimensional sheet transformed into ethereal shapes and proportions that conjure the infinite, constant vibrations of desert heat. The light's movement envelopes its surroundings.

### LIGHT IS THE SOLIDITY OF ARCHITECTURE

*“Interior design is an act of love destined for our buildings. Our architecture, much like lamps, is magically illuminated at night, and we firmly believe that both natural and artificial light are the solidity of architecture, the only elements that can wholly modify perception. Light is extremely important and precious, like a diamond whose pure facets emanate a spectrum of colours ranging from cool to pink”*
